

# Product Catalogue

# Show its local, use the Pride Mark

One of the main tenets of the **#PushaBW** campaign is to create awareness of the large variety of local products and services available in Botswana. The **#PushaBW** product catalogue is your one-stop source of information on the wide variety of locally made and available products and services.

To be a part of the **#PushaBW** catalogue, one has to be a registered Pride Mark using company. The Pride Mark is a symbol of pride that identifies local products, services and initiatives. Any product that carries the Pride Mark supports the “Pride and Progress” of the Brand Botswana as an initiative.

The Pride Mark shows that your products or services are made locally and using the Pride Mark will also assist your company to get both local and international recognition.

## How to apply for the use of the Pride Mark

1. Visit [www.brandbotswana.co.bw](http://www.brandbotswana.co.bw) application form or fill in online, and download the Pride Mark application form.
2. Fill in the application form and, along with all the required documents, send to [brandbotswana@bitc.co.bw](mailto:brandbotswana@bitc.co.bw)
3. To make a follow-up on your application, contact BITC at Tel: **+267 363 33 00**. You will get a response within **14** working days.

# Importance of supporting local products

## Buying Botswana

- 1 Create employment**

Buying Botswana plays a significant role in job creation, as local companies grow they are able to absorb more labour - reducing the unemployment rate in the country.
- 2 Grow Government revenue for social services**

When you Buy Botswana, the companies are able to pay taxes to Government. This revenue is then used to improve social services and provide infrastructure need for economic development.
- 3 Grow local industries**

Local industries are essential for long term economic growth. Buying Botswana will help grow them and create further down stream industries.
- 4 Create local wealth**

Buying Botswana creates wealth for the local producers and business people. The more wealth is created in the nation the better the quality of life.
- 5 Empower communities**

Buying Botswana can help empower local communities. Products such as baskets are usually woven by community members.
- 6 Enjoy quality products**

Despite some perceptions, local producers and service providers deliver quality products which are able to compete with cross border goods. Buying Botswana will help improve these products.
- 7 Help diversify the economy**

Buying Botswana helps diversify the economy away from the mineral wealth that Botswana has relied on. A diversified economy is cushioned against adverse shocks.
- 8 Build strong local brands**

Buying Botswana helps local brands establish themselves and eventually grow to greater recognition. Local brands such as St Louis Lager are well known and appreciated across the country.
- 9 Promote self sufficiency**

Buying Botswana helps promote national self sufficiency. Buying locally produced goods helps protect the country from low external supply of essentials.
- 10 Create export capacity**

Buy Botswana to create export capacity for locally produced goods. Most of the world's largest brands are widely consumed in their country of origin.

# About Botswana

Botswana is a land-linked country that sits in the heart of Southern Africa bordered by South Africa to the south, Namibia to the west and north-west, Zimbabwe to the north-east and Zambia to the north. Botswana's central location gives her better access to a majority of the Southern African Development Community (SADC), placing her as the ideal investment and trade hub.

# About BITC

Botswana Investment and Trade Centre (BITC), is an organisation established by an act of Parliament to become an integrated Investment and Trade Promotion Authority (ITPA) with an encompassing mandate of investment promotion and attraction, export promotion, and development, including management of the Nation Brand. Through its critical role within Botswana's economy, BITC further encourages

domestic investment and expansion, promotes locally manufactured goods to regional and international markets, contributes towards improvement of the investment climate through policy advocacy, increases citizen participation in the economy and creates sustainable job opportunities.

## Growing Botswana's economy

Over the years, there has been a steady increase in local product offering, improved and innovative service offerings and initiatives that all help to grow the economy. This growth is highly significant on the success and growth of the national economy but can only truly prove impactful, long lasting and effective if supported by Botswana. To this day, the uptake of local products, use of services and support of initiatives has been low for a variety of reasons, some of which include in part due a general lack of knowledge about those goods and services.

Buy Botswana, driven by the message **#PushaBW**, is a national initiative that is aimed at encouraging Botswana to actively play their part in growing the local economy by buying locally made products, supporting local initiatives and using local services. It's a call for Botswana to embrace local products and to actively choose to buy them bearing in mind what that means for the individuals who produce them and the country as a whole.

In short, **#PushaBW** is rally cry for all Botswana to play their part in growing Botswana by 'buying local'. It is a reminder to encourage local production and confirms that we are all driving the country forward. All Botswana are encouraged to use **#PushaBW** to showcase anything local - in our discussions and initiatives.

It is for this reason that we encourage all Botswana to support local, buy local and love local.

The image features two bars of white, rectangular soap. The soap bars are positioned diagonally, with the top bar slightly behind and to the right of the bottom bar. They are resting on a light-colored, textured mat made of thick, braided rope. The background is a solid, vibrant orange color. A large, semi-transparent white circle is overlaid on the right side of the image, partially covering the soap bars. In the bottom left corner, the text "Soap and Detergents" is written in a bold, white, sans-serif font. A white L-shaped graphic element is located at the bottom left, consisting of a horizontal line that turns 90 degrees downwards into a vertical line.
